Mozaik Sanatı...

İçerisinde barındırdığı tüm farklı duygular, heyecanlar ve renklerle yaşamın ta kendisidir mozaik...

Mozaik, parçaların bütüne doğru sonsuz bir yolculuğudur aslında... Bu yolculukta her bir kıvrım, her bir renk gözlerde hayranlık ve merak uyandıran büyü bir dünyanın kapısını aralar.

Tarih boyunca mozaik, bir medeniyetin kendi kültürel dokusunu sonraki nesillere ulaştırabildiği bir iletişim aracı olmuştur.

Antik çağlardan günümüze kadar uzanarak varlığını koruyan mozaik kültürü, günümüzde artık bireysel anlamda bir yaşam tarzını, kurumsal anlamda da bir vizyonu ifade eden sanatsal bir iletişim aracı haline dönüşmüştür.

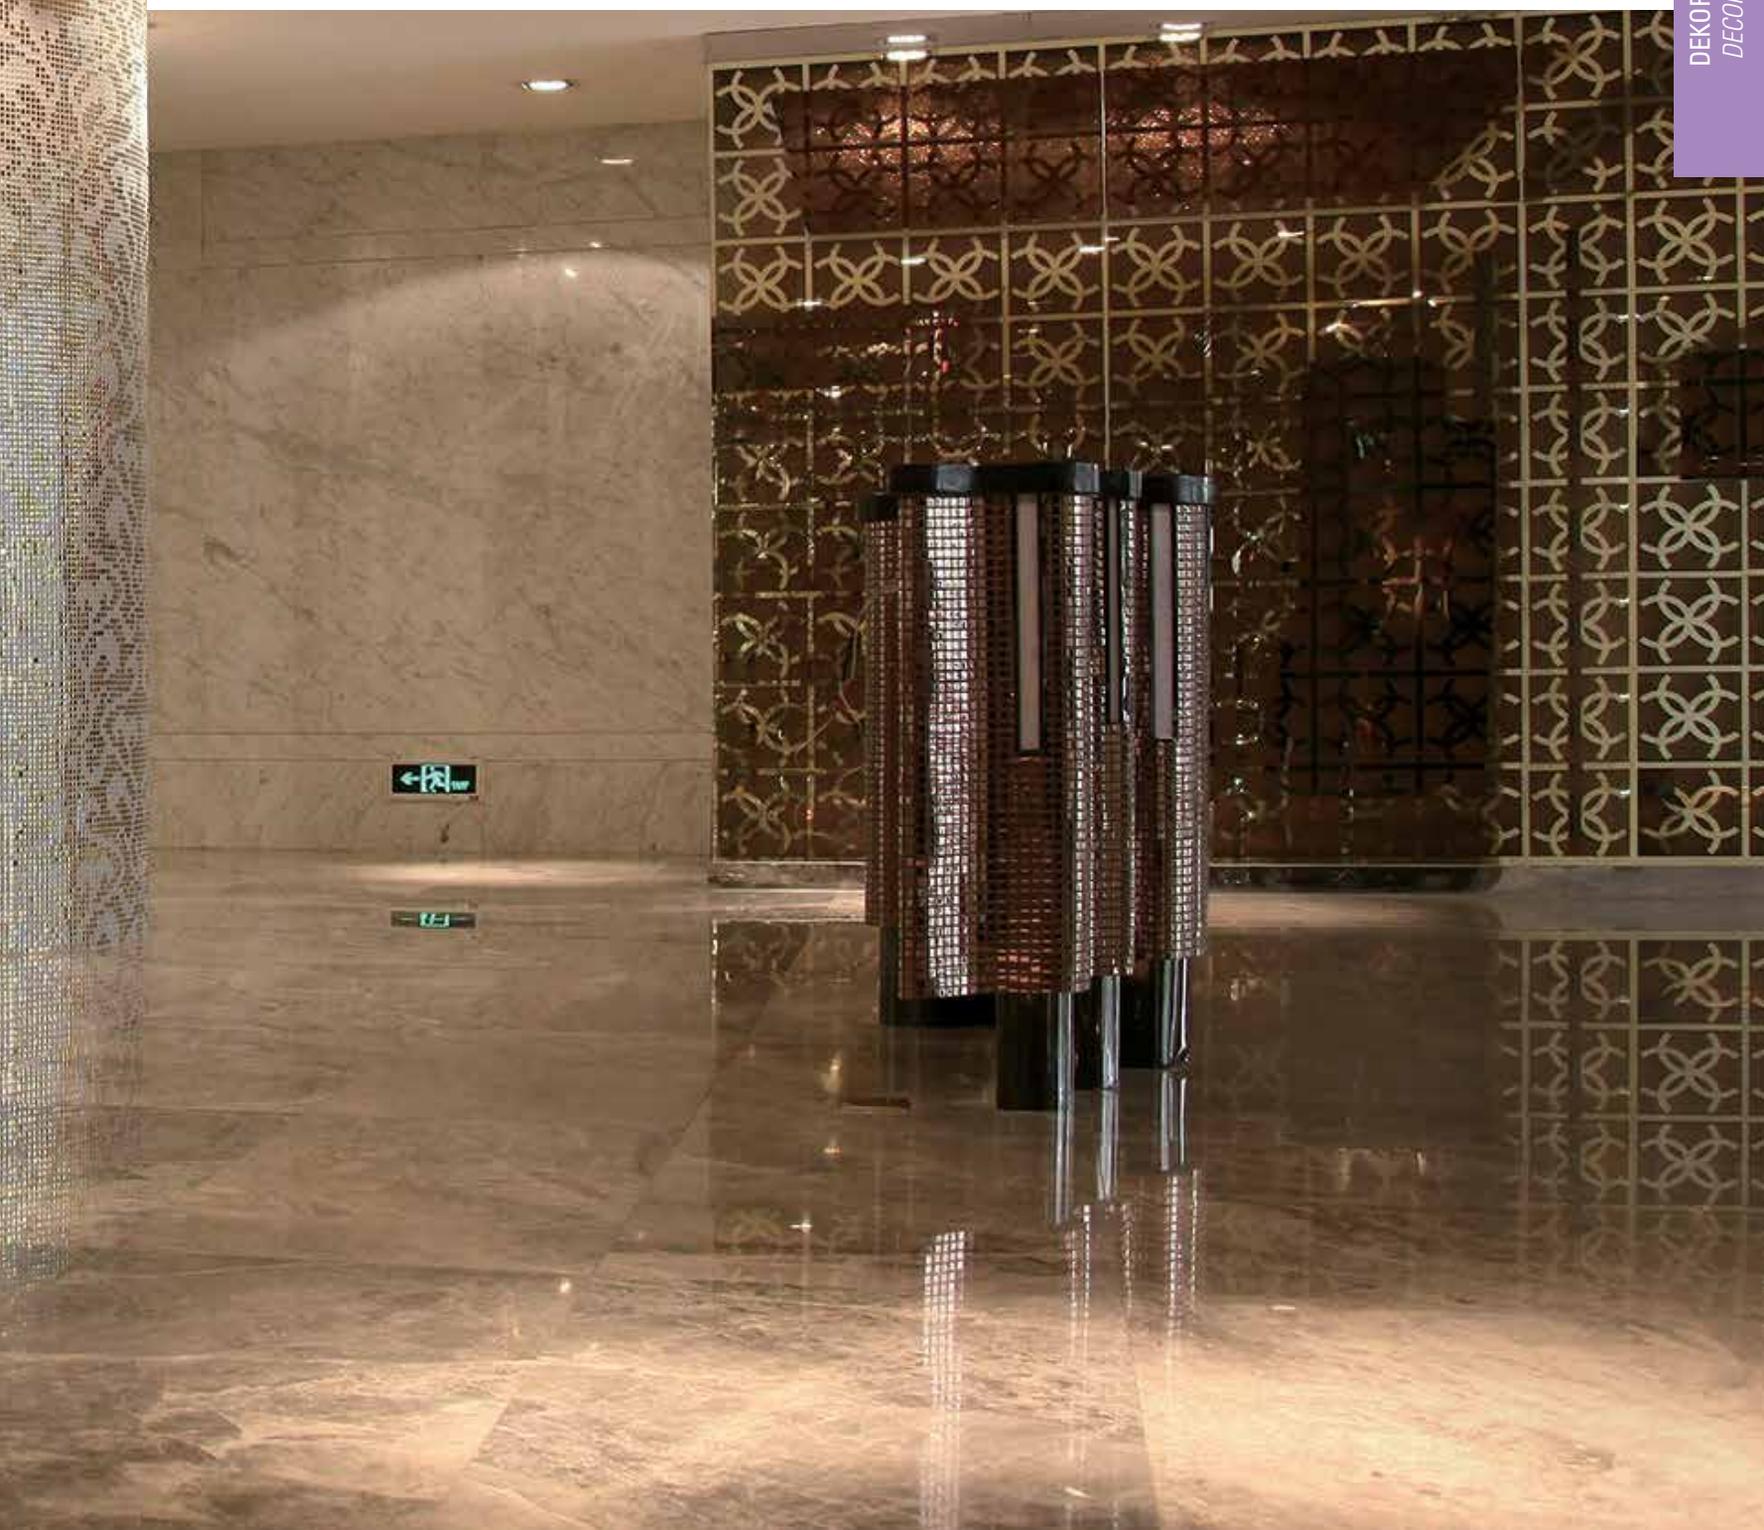

Art of Mosaic...

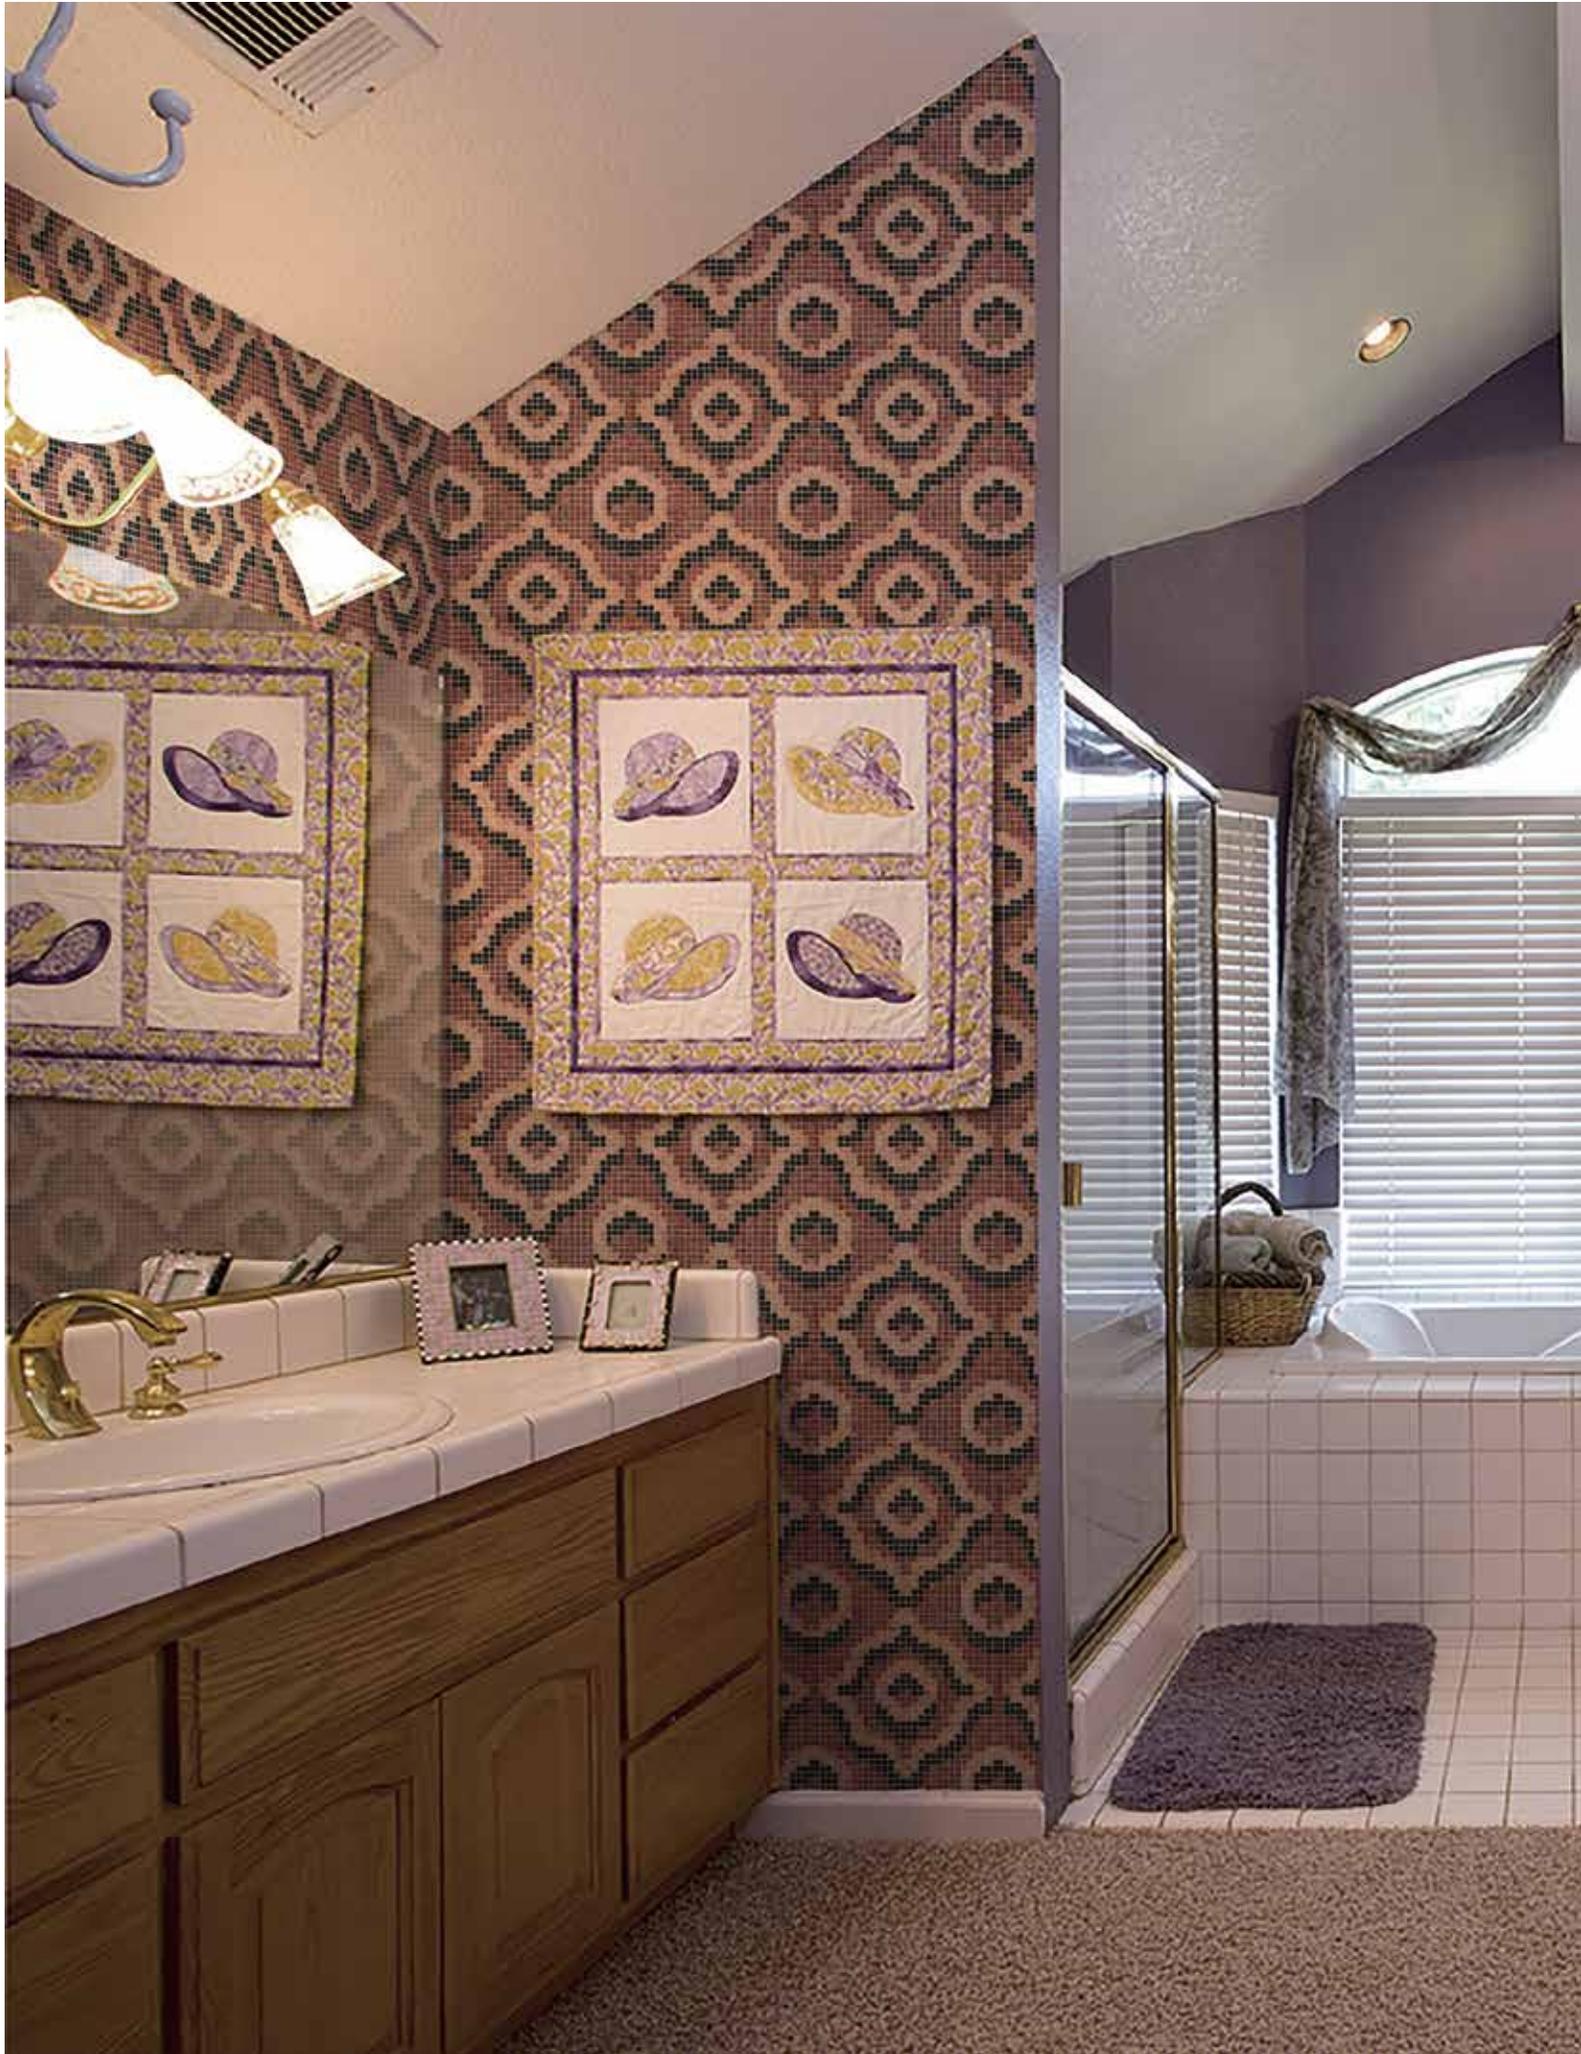

Along with all the different feelings, excitements and colors, the life itself is the mosaic...

The mosaic is an endless journey of parts of the whole indeed... In this journey each curvature, each color touches the eyes of a magical world that arouses admiration and curiosity in the eyes.

Throughout history, the mosaic has become a means of communication in which a civilization could transmit its cultural heritage to subsequent generations.

The mosaic culture which preserves its existence by extending from the antiquity to the present day has now become an artistic means of communication that expresses a life style in an individual sense and a vision in an institutional sense.
